

TOTAL LOGISTICS

BML is one of the world's most experienced providers of Total Logistics solutions. We manage the complex flow of goods for clients worldwide.

We design and manage supply chains from planning procurement and production to arrival and delivery of products at their final destination. Our Total Logistics solutions are tailored to meet the exact needs of our clients.

Our Total Logistics services allow our clients to react to rapid changes in the market while minimising their own investment risks and operational costs.

We have the global set-up in place to allow our clients to explore opportunities in new markets with complete integrated solutions. From warehousing and distribution services to purchase and quality management, we can build the right supply chain so our clients' businesses can move fast.

GO BEYOND 3PL...

Our solutions integrate a range of different options on both the upstream and downstream sides of the supply chain and include:

- Strategic Sourcing & Procurement
- Design Engineering
- Production
- Transportation Management
- Warehousing & Kitting
- Logistics Operations
- Value Added
